

JEET RANPARIYA

MERN Stack Developer

Ahmedabad, India | ranpariyeet27@gmail.com | +91 8320028800 | linkedin | github | Twitter |

PROFESSIONAL SUMMARY

MERN Stack Developer with 1.5+ years of professional experience building scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in RESTful API design, JWT/OAuth authentication, Redis caching, Docker-based deployment, and database optimisation. Proven ability to reduce page load times by 35% and improve search performance by 40%. Seeking a Full-Stack or Frontend Developer role to ship production-grade features within a product-focused team.

TECHNICAL SKILLS

Frontend React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend Node.js, Express.js, Python, RESTful APIs, WebSockets (Socket.io), JWT & OAuth 2.0 Authentication

Database & Cache MongoDB, Mongoose, PostgreSQL, SQL, Redis

Tools & Cloud Git, GitHub, Docker, Postman, VS Code, Vercel, Render, ImageKit

Soft Skills Problem Solving, Critical Thinking, Quick Learner

PROFESSIONAL EXPERIENCE

MERN Stack Developer — Spark to Ideas 1.5 Years

React.js, Node.js, Express.js, MongoDB, Redis, Docker

- Developed and maintained 5+ full-stack web applications using the MERN stack, building 20+ reusable React.js components for client-facing products.
- Designed and integrated RESTful APIs with secure JWT-based authentication and well-structured MongoDB data models.
- Implemented Redis caching to cut repeated database queries, improving API response times by ~73%.
- Containerised 3+ services with Docker to keep development, testing, and deployment environments consistent.
- Collaborated through Git workflows and code reviews, contributing to feature development and 10+ production releases.

Frontend Developer Intern — Spigot Infotech Jun 2024 – Aug 2024

HTML, CSS, JavaScript, React.js

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js for client-facing products.
- Integrated 5+ REST APIs, reducing data fetch latency by ~30% and ensuring smooth data flow across the application.
- Resolved frontend bottlenecks and participated in code reviews, contributing to feature development and two releases.

FEATURED PROJECTS

Social Media Post App (MERN) Github | Live

React.js, Node.js, Express.js, MongoDB, OAuth, ImageKit

- Built a scalable social media platform using React.js with reusable components for a fast, responsive user experience.
- Served 500+ test users; reduced page load time by 35% via lazy loading and ImageKit-based image optimisation.
- Optimised MongoDB queries with indexing, improving search performance by 40%.
- Implemented OAuth 2.0 authentication for secure login and session management.

Real-Time Chat System (PERN) GitHub | Live

React.js, Node.js, Express.js, PostgreSQL, Socket.io, JWT

- Built a real-time chat application with one-to-one and group messaging using WebSockets (Socket.io), supporting 50+ concurrent users.
- Delivered messages in under 200 ms with live online/offline presence; stored persistent message history in MongoDB with JWT-based authentication.
- Designed RESTful APIs and optimised MongoDB queries with indexing, improving message retrieval speed by ~30%.
- Developed a responsive React.js interface with reusable components for conversations, contacts, and notifications.

EDUCATION

B.Tech in Computer Science and Engineering (Pursuing) Aug 2025 – Present

Silver Oak University — July 2025 – Jun 2028

Diploma in Computer Engineering Aug 2022 – Jun 2025

Nobel University
